

HILAL AHMAD

Nationality: Pakistani **Date of birth:** 06/02/1990

Phone number: (+92) 3110574105 **Email address:** aipioner.dev@gmail.com

Work: CIVIL SECRETERIAL PESHAWAR KP HOME DEPARTMENT IT CELL ROOM NO 21
DISTRICT NOWSHERA TEHSIL PABBI P.O BOX AKBAR PURA MOHALLA BARA GHARA
AKBAR PUARA, 24320 PESHAWAR (Pakistan)

ABOUT ME

I am a dedicated computer science student, navigates the exciting realm of technology with passion and precision. With a thirst for knowledge and a knack for problem-solving, I delve into coding challenges, embrace innovation, and seek to leave a lasting impact in the dynamic field of computer science. Committed to continuous learning, I am poised to make meaningful contributions to the ever-evolving world of technology.

EDUCATION AND TRAINING

MS COMPUTER SCIENCE

ISLAMIA COLLEGE UNIVERSITY PESHAWAR KPK PAKISTAN [02/02/2016 - 08/08/2019]

City: PESHAWAR | **Country:** Pakistan | **Website:** <https://www.icp.edu.pk/> | **Field(s) of study:** Machine Learning and Computer Vision | **Final grade:** 3.38/4.00 | **Thesis:** Deep Features Assessment for Human Action Recognition Application

Bachelor of Science in Computer Science

THE UNIVERSITY OF AGRICULTURE KPK PESHAWAR [02/02/2011 - 04/06/2015]

City: Peshawar | **Country:** Pakistan | **Website:** <https://www.aup.edu.pk/> | **Field(s) of study:** Computer Science | **Final grade:** 3.21/4.00 | **Thesis:** Inventory Management System

HIGHER SECONDARY SCHOOL CERTIFICATE

INSTITUTE OF BUISNESS & SCIENCE ZARYAB COLONY PESHAWAR [02/01/2009 - 19/07/2010]

City: PESHAWAR | **Country:** Pakistan | **Website:** <https://www.bisep.edu.pk/> | **Final grade:** 634/1100

SEONDARY SCHOOL CERTIFICATE

ROSE MODEL SCHOOL AKBAR PURA NOWSHERA [02/03/2005 - 16/07/2007]

City: PESHAWAR | **Country:** Pakistan | **Website:** <https://web.bisemdn.edu.pk/> | **Final grade:** 577/900

CERTIFICATE OF TEACHING (C.T)

ALLAMA IQBAL OPEN UNIVERSITY ISLAMABAD [03/03/2012 - 03/07/2014]

City: Islamabad | **Country:** Pakistan | **Website:** <https://aiou.edu.pk/> | **Field(s) of study:** Education | **Final grade:** 585/900

Bachelor of Education (B.ED)

ALLAMA IQBAL OPEN UNIVERSITY ISLAMABAD [02/03/2016 - 17/01/2017]

City: ISLAMABAD | **Country:** Pakistan | **Website:** <https://aiou.edu.pk/> | **Field(s) of study:** Education | **Final grade:** 613/900

Master of Education (M.ED)

ALLAMA IQBAL OPEN UNIVERSITY ISLAMABAD [07/03/2016 - 30/03/2018]

City: ISLAMABAD | Country: Pakistan | Website: <https://aiou.edu.pk/> | Field(s) of study: Education | Final grade: 769/1200

Diploma in information Technology (D.I.T)

APTECH INSTITUTE OF INFORMATION TECHNOLOGY PESHAWAR [14/08/2014 - 06/04/2015]

City: PESHAWAR | Country: Pakistan | Website: <https://www.kpbte.edu.pk/> | Field(s) of study: Information and Communication Technologies | Final grade: 1173/1700

WORK EXPERIENCE

Computer Operator (Bps-16)

CIVIL SECRETARIAT HOME DEPARTMENT GOVERNMENT OF KHYBER PAKHTUNKHWA PESHAWAR KPK [24/11/2021 - Current]

City: PESHAWAR | Country: Pakistan

- I am making the presentation.
- II. Review the troubleshooting of networking issues.
- III. Check the Citizen Portal Complaints.
- IV. Examine all hardware resources of computers.
- V. Assess software maintenance.
- VI. Inspect the surveillance system of CCTV cameras.

Vice Principal

Iqra Rozaat-ul- sibyan School Nowshera [01/01/2015 - 30/07/2016]

City: PESHAWAR | Country: Pakistan

MAIN RESPONSIBILITIES.

- a. Managing Matric program.
- b. Training of Professional courses to the staff and students of Matric and Graduate level.
- (b). Public and customers dealing and solve their problems daily

Civil Computer Operator (Bps-14)

Pak army signal training center kohat Cantonment Pakistan [18/02/2018 - 30/10/2018]

City: Kohat | Country: Pakistan

- 1. System Monitoring:
 - Monitor computer systems and networks to ensure optimal performance.
 - Keep an eye on hardware, software, and network operations to identify and address issues promptly.
- 2. Data Management:
 - Manage and organize data files, ensuring proper storage and retrieval procedures.
 - Perform regular backups and implement data security measures to safeguard sensitive information.
- 3. Troubleshooting:
 - Diagnose and resolve hardware and software problems promptly to minimize downtime.
 - Collaborate with technical support teams to address complex issues and escalate when necessary.
- 4. Resource Management:
 - Monitor and manage computer resources such as memory, CPU usage, and storage capacity to optimize system efficiency.
 - Coordinate with relevant departments to allocate resources effectively based on organizational needs.
- 5. Software Maintenance:
 - Install, update, and maintain software applications to ensure they are current and secure.

- Collaborate with IT teams to implement patches, updates, and upgrades as needed for improved functionality and security.

6. Documentation and Reporting:

- Maintain accurate records of system configurations, procedures, and user documentation.
- Generate regular reports on system performance, issues, and resolutions for management review and decision-making.

Computer science lecturer (Bps-17)

Peshawar Model Degree College Boys Hayatabad Phase IV [31/08/2019 - 31/01/2021]

City: PESHAWAR | **Country:** Pakistan

1. Curriculum Development:

- Develop and update course materials, including lecture notes, assignments, and assessments.
- Stay current with advancements in the field to incorporate relevant technologies and concepts into the curriculum.

2. Classroom Instruction:

- Deliver engaging and informative lectures, labs, and workshops to students.
- Foster a positive and interactive learning environment, encouraging student participation and critical thinking.

3. Student Guidance:

- Provide academic guidance and support to students, including mentoring on research projects and career development.
- Offer assistance with understanding complex concepts and technologies related to computer science.

4. Research and Publications:

- Conduct research in the field of computer science and contribute to academic journals or conferences.
- Stay involved in scholarly activities to enhance personal knowledge and contribute to the academic community.

5. Evaluation and Assessment:

- Design and administer exams, quizzes, and assignments to assess students' understanding of course material.
- Provide constructive feedback to help students improve and succeed in their studies.

6. Professional Development:

- Engage in continuous professional development to stay abreast of emerging trends and technologies.
- Attend conferences, workshops, and seminars to enhance teaching skills and broaden knowledge in computer science.

Network Administrator:

1. Network Infrastructure Management:

- Design, implement, and maintain computer networks to ensure optimal performance and reliability.
- Monitor network traffic, troubleshoot connectivity issues, and optimize network configurations.

2. Security Management:

- Implement and enforce security measures to protect the organization's network from unauthorized access, malware, and other threats.
- Conduct regular security audits and update security protocols to address vulnerabilities.

3. Hardware and Software Maintenance:

- Oversee the installation, configuration, and maintenance of networking hardware such as routers, switches, and firewalls.
- Manage network-related software, including updates, patches, and license renewals.

4. User Support:

- Provide technical support to end-users for network-related issues, including connectivity problems and access privileges.
- Create and maintain user accounts, ensuring proper permissions and access levels.

5. Documentation:

- Maintain detailed documentation of network configurations, procedures, and troubleshooting steps.
- Keep an inventory of network equipment and software licenses for accurate asset management.

6. Disaster Recovery Planning:

- Develop and implement disaster recovery plans to minimize downtime in case of network failures or data breaches.
- Regularly test and update contingency plans to ensure readiness for unforeseen events.

Computer Operator (Bps-16)

Quality Assurance Programme Higher Education Department Khyber Pakhtunkhwa [01/03/2021 - 23/11/2021]

City: PESHAWAR | Country: Pakistan

System Monitoring and Maintenance: Responsible for the proper functioning of computer systems, ensuring that they operate as expected, and conducting routine maintenance to avoid problems

Data Administration: Execution, dealing with information section and bombed passage on exactness grounds bringing about the prevention of advancement, security information.

Technical Support: Assist faculty, staff and students with technical issues by diagnosing problems related to hardware and software.

We have protocols for backup and recovery in place. We work responsibly to implement and administer regular backups so that your data is effectively recovered in the event of system failure or be held ransom by malicious entities

Software Updates: This includes installing and updating software applications identified by developers as the best opportunities to keep your systems current and secure

Documentation and reporting - keeping accurate logs in terms of system operations, problems met and countered measures. Reporting such information if required as well.

PROFESSIONAL CERTIFICATIONS:

Cisco Certified Network Associate (CCNA) – Cisco

HEALTH AND SAFETY COURSES

[01/02/2022 - 30/06/2022]

Nebosh Level 3

The NEBOSH Level 3 qualification, also known as the NEBOSH National General Certificate in Occupational Health and Safety, is a widely recognized certification that provides a broad understanding of health and safety issues. It equips individuals with the knowledge to identify and manage workplace risks effectively. The course covers essential topics such as health and safety management systems, risk assessment, accident investigation, and legislation. It is ideal for managers, supervisors, and anyone responsible for health and safety in their organization.

[01/08/2022 - 30/12/2022]

Iosh

The IOSH certification, specifically the IOSH Managing Safely course, is a leading health and safety qualification designed for managers and supervisors in any industry. It provides essential knowledge and skills to identify, evaluate, and control workplace risks, ensuring a safe working environment. The course covers topics like risk assessment, accident investigation, and legal responsibilities, equipping participants to manage health and safety effectively within their teams.

[2022]

Effective Video Summarization Approach Based on Visual Attention Video summarization is applied to reduce redundancy and develop a concise representation of key frames in the video, more recently, video summaries have been used through visual attention modeling. In these schemes, the frames that stand out visually are extracted as key frames based on human attention modeling theories. The schemes for modeling visual attention have proven to be effective for video summaries. Nevertheless, the high cost of computing in such techniques restricts their usability in everyday situations. In this context, we propose a method based on KFE (key frame extraction) technique, which is recommended based on an efficient and accurate visual attention model. The calculation effort is minimized by utilizing dynamic visual highlighting based on the temporal gradient instead of the traditional optical flow techniques. In addition, an efficient technique using a discrete cosine transformation is utilized for the static visual saliency. The dynamic and static visual attention metrics are merged by means of a non-linear weighted fusion technique. Results of the system are compared with some existing state-of-the-art techniques for the betterment of accuracy. The experimental results of our proposed model indicate the efficiency and high standard in terms of the key frames extraction as output.

Keywords: KFE; video summarization; visual saliency; visual attention model
